

CORNERSTONE

- 2018 -

Established in Denmark with passion for marble.

NORDST is a young Danish brand established in 2016 with a focus on contemporary furniture and accessories, using marble as the main material in all their pieces.

Our style is defined as modern and majestic, following the Danish and Scandinavian traditional design, which makes it simple yet functional.

The passion for marble that also inspired the creation of NORDST, is one of our biggest strengths. With more than 10 years of experience in the marble industry, we are able to offer and deliver outstanding pieces among our incredible color options.

In 2018, NORDST introduced its new collections, Holy Marble and Pure, complementing the previous styles in furniture.

Niels Gammelgaard

Renowned Danish product designer became the 1st external designer appointed to design NORDST's new furniture collection, Holy Marble.

Mr. Gammelgaard was born in 1944 in Copenhagen - Denmark. An industrial designer by profession from the Royal Danish Academy of Fine Arts, he has designed pieces for well-known furniture brands like Fritz Hansen, IKEA, among many other Scandinavian brands.

His designs have won important awards such as Ætmarkt, Red Dot, and the Danish Design's Council Annual Award.

LEA

Standing by a single pillar, LEA evokes the simplicity and elegance of a side table that has been designed to be not only highly useful but also practical and easy to combine. One special characteristic of smaller tables in the Holy Marble collection is the different heights in all of them, allowing them to be combined.

SEM

Its name symbolizes prosperity and has been designed to work as a lucky charm at home. With a steady rectangular shape, it represents the solid foundation of a wealthy environment.

JOB

Breaking the traditional round and rectangular shapes, JOB has been designed in a pentagonal outline with soft corners. The usable length of this table increases when 2 or more JOB tables are placed together from any of their sides while keeping a stylish appearance.

NOA

As a representation of fertility, NOA's design resembles the source of life, born from the ground and growing to a majestic surface that gathers around the joy of life itself. The soft beveled edge, characteristic of Holy Marble tables, enhances the look of this coffee table.

ELI

Its center base built by a column of 4 pillars creates a unique contrast with the 5 points of this dining table. The pentagonal shape emulates the Sun; the closest biggest star above us and that also enriches our day-to-day.

LOT

In a fine circular shape, LOT reminds us the fraternity and filiality in all our relationships bringing more people around us. Its center base goes to the top of the table through the marble, giving a modern feature that is also characteristic in all the tables of this collection.

P U R E

Inspired by the concept of Bruskunst, 'Pure' goes beyond regular furniture design. It provides a certain class of service to the user, including extra utility, art, and feel. As part of the extra utility, Pure can serve as a stand-alone set.

ULRICH HEEGARD

NORDST main designer, Ulrich was born in Copenhagen, Denmark. His early experience in the furniture industry drove him to be closely involved in furniture design and materials. This craft which Ulrich started as a job, evolved to a hobby and has ended up as a burning passion which drives him.

With more than 10 years of constant learning and practice, Ulrich has so sharpened and perfected his design skill. In 2016, through his creativity, NORDST was able to make real those designs that represent the simple and beautiful Danish and Scandinavian lifestyle.

In 2018, his design T-Large, part of PURE collection, won the award 'Design Shanghai Picks 2018'; an award that was to be given to the most inspiring designs exhibited in this event.

T - Large & T - Small

The versatility in the design makes these tables functional and beautiful in every way. These tables serve well as a side table, console table, and can be used to complement other tables. Made completely of pure marble with a polished finish, they can be combined with a metal rim for a more stylish look.

T - Round

The T-round side table is created to portray a minimalist expression. Its design combine different shapes which include a round top, a rectangular base which straight lines form a T when viewed from the side, and a triangular cut in the frontal side which enables it to be used together with other coffee tables.
