

WHO ARE WE ?

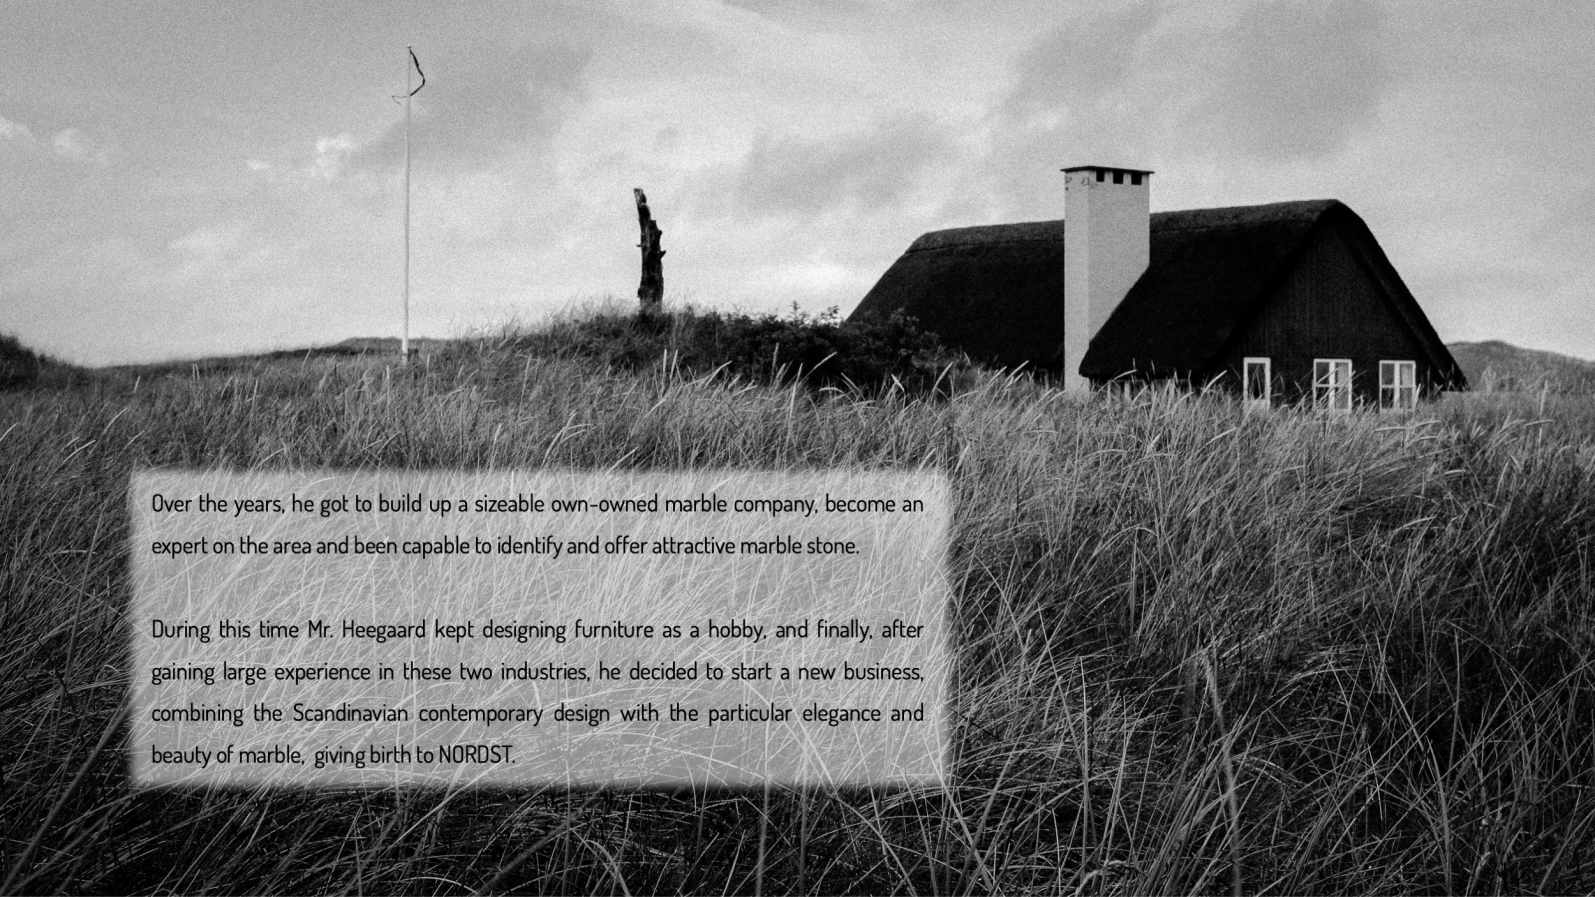

NORDST is a Danish brand specialized in combining the timeless and contemporary Scandinavian design, with a luxurious yet versatile natural element such as marble.

NORDST's founder, Ulrich Heegaard, has been always passionate about Scandinavian furniture.

This passion drove him in 2005 to work at a Danish furniture company, where he got knowledge about designs, materials, and how to create beautiful pieces keeping the simplicity that represents this style.

Over the years, he got to build up a sizeable own-owned marble company, become an expert on the area and been capable to identify and offer attractive marble stone.

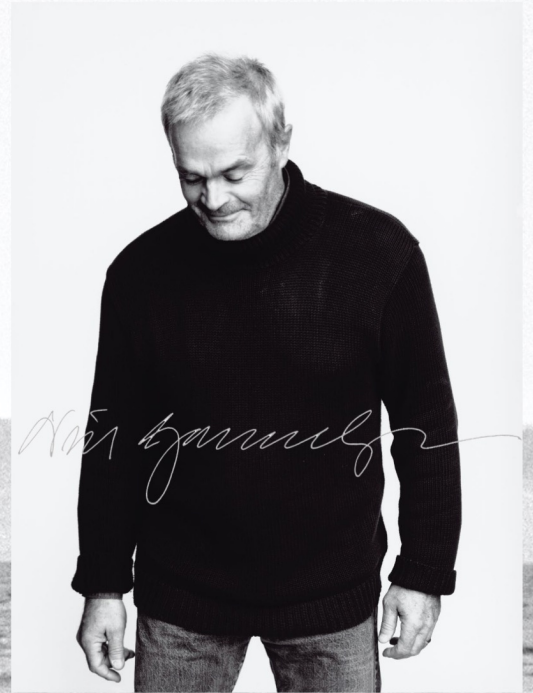

During this time Mr. Heegaard kept designing furniture as a hobby, and finally, after gaining large experience in these two industries, he decided to start a new business, combining the Scandinavian contemporary design with the particular elegance and beauty of marble, giving birth to NORDST.

OUR DESIGNER

More recently, in 2018, Niels Gammelgaard, renowned Danish product designer, became the 1st external designer appointed to design NORDST's new furniture collection, Holy Marble.

Mr. Gammelgaard was born in 1944 in Copenhagen, Denmark. Industrial designer by profession, Mr. Gammelgaard has designed pieces for renowned furniture brands like Fritz Hansen, IKEA, and many other Scandinavian brands.

His designs have won important awards, such as Ütmärkt, Red Dot, and the Danish Design's Council Annual Award.

OUR VISION

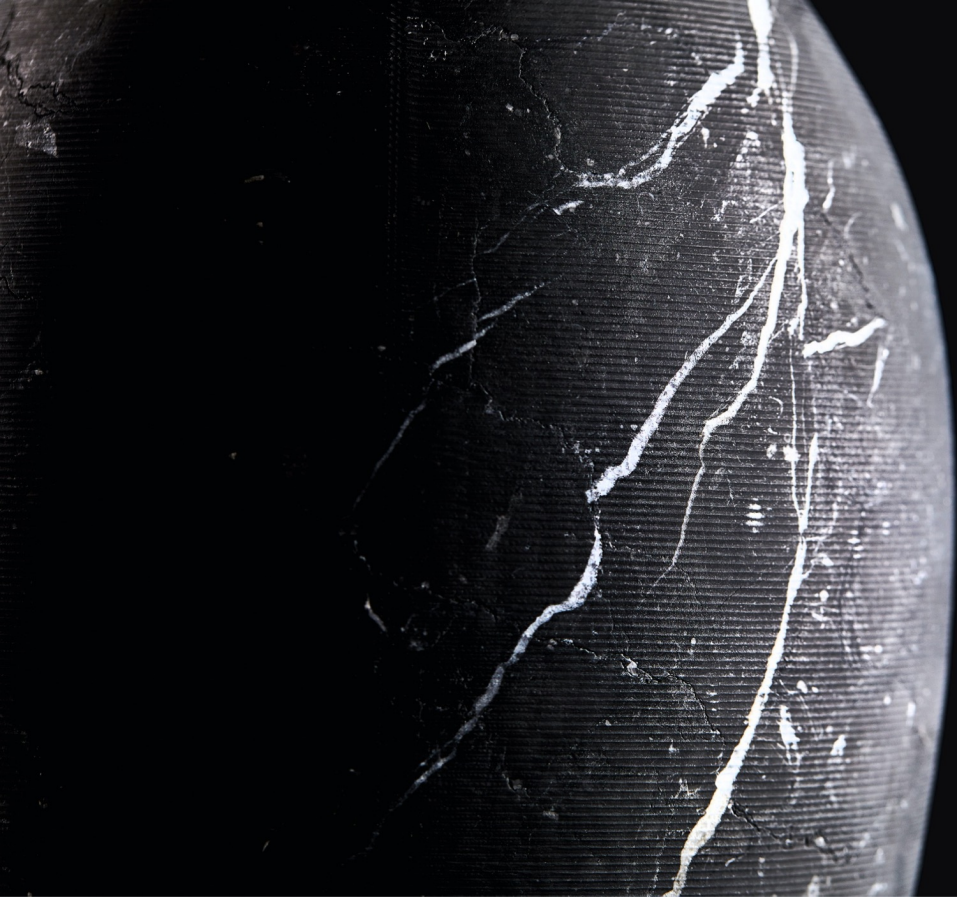

At NORDST our goal is to become a well-known Contemporary marble furniture brand worldwide, offering competitive prices for all our products keeping a great quality standard.

OUR PRODUCTS

NORDST was born from the idea to
combine 2 elements that are usually not seen together:

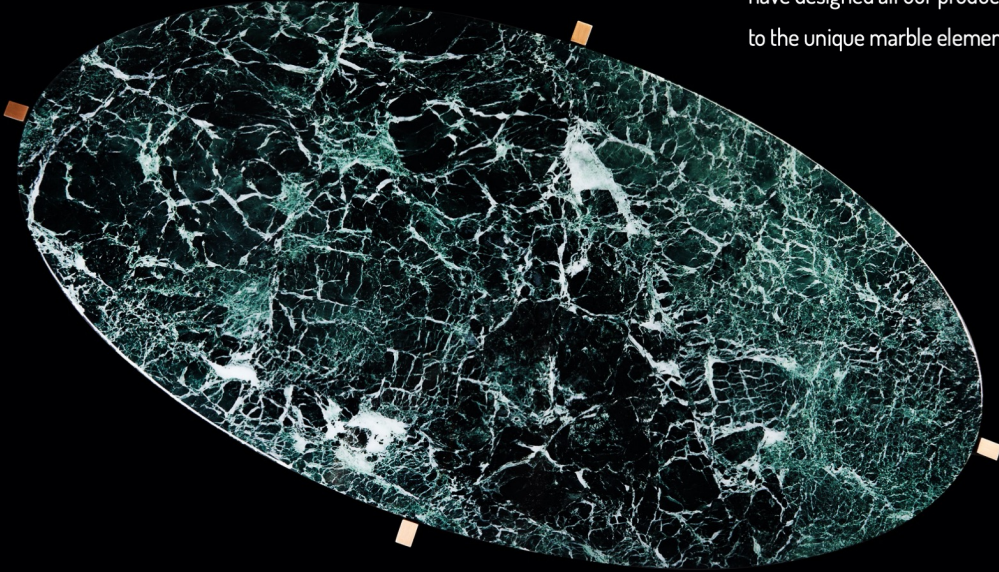

MARBLE & DANISH DESIGN

Marble is a stone which has acquired different pigmentations not only in the stone itself but also throughout the veins, thanks to different mineral and elements deposited over the years of the stone's formation.

All marble used in our products has been imported by NORDST from quarries located in Turkey and around the world.

We define our tables' designs as timeless and modern, both elements found on Scandinavian style. By having experience in dealing with this kind of furniture, we have designed all our products to keep a subtle yet outstanding look, giving focus to the unique marble element.
